New York Gold Quotations. 141

WASHINGTON COUNTY FAIR.—The third annual fair of the Washington County Agricultural Society, will be held at their Fair Grounds near Hillsboro, on the 4th 5th, 6th and 7th days of October, 1869. The premiums offered amount to $2,500.

On the first day there will be a trotting race for Washington county bred horses, best two in three, for a premium of $30; and a running race for two year old colts, half mile and repeat, for premium of $10.

On the second day, the annual address by the President will be delivered at 10 o'clock A. M., parade of animals, and at 1 o'clock P. M. a running race for three year olds, single dash of one mile, for premium of $40. At 2 o'clock, trotting race, 2 best in 3, for $40. At 4 o'clock, walking race, one mile, for $30.

On the third day, at 1 o'clock, running race open to all, mile heats, 2 in 3, for $100. At 3 o'clock double team trotting race, mile heats, 2 in 3, for $20. At 4 o'clock shooting match, for premium of $5

On the fourth day, parade of premium animals. At 11 o'clock, pacing race, mile heats, 2 in 3, for $40. At one o'clock P. M. running race, single dash of one mile, for $50. At half past 3 P. M. running race for 2 year olds single dash of one mile, for $60. At 4 P. M. best voltigeur, 1 mile for premium of $25

There will be also a number of premiums offered on draft and carriage horses, breed mares, etc., and in all kinds of farm stock. It is confidently anticipated that this fair will far surpass in interest and variety of exhibitions, all that have preceded it in Washington county.

FOURTH OF JULY CELEBRATION.—Pursuant to notice given, the Committees on Finance and on Arrangements, who were appointed at a former meeting to raise funds and make the necessary arrangements to celebrate the coming Fourth of July, met at the Council Chamber on Monday evening, May 24th, at eight o'clock.

The meeting was called to order by A. B. Richardson, Esq., who was chosen Chairman *pro tem*.

Whereupon H. Boyd, Esq., Chairman of the Committee of Arrangements, appeared and took the Chair.

On motion committees were appointed by the Chairman on fireworks, music, invitation, programme, declaration and grounds.

E. J. Northrup, Esq., declined to serve on the Committee of Arrangements, for the reason that he expects to be absent on business, and on motion he was excused.

On motion the meeting adjourned to meet again upon the call of the Committee on Finance.

The several committees were instructed to obtain information and report estimates of the probable cost of the several branches of programme on celebration.

H. BOYD, Chairman.

J. E. McCOY, Secr'y.

THE BURMESTER TRAGEDY.—We have been shown a letter to Mr. Hunsaker, concerning the Burmester tragedy near Boise, written on the 17th, in which the writer says that Mrs. Burmester was still living and that hopes were entertained of her recovery. She exhibits the most wonderful courage and fortitude, which greatly favor her chances. At the date of the letter, three days after the tragedy, she was suffering but little. In relating the occurrence of the brutal attack upon her, the writer says the man beat and choked her fearfully. When she got away and procured the shot gun, he ran up stairs, set fire to the house, came down, and being unable to get into the room in which she had locked herself, fired three shots through the door, without hitting her; he then went outside and thrust his head through the window and fired three more shots at random, one taking effect as before stated. He then went and set fire to the house in the front room and shot himself. These are all the facts stated except as we have before published them.

RAILROAD ROORBACK.—The *Commercial* professes to have information that Mr. Holladay has failed to buy any railroad iron at San Francisco, and prophesies therefrom that there will be no railroad built before the first of January, and that the land grant will therefore revert to the Government. If it should happen that Mr. Holladay has not sought or wished to purchase any railroad iron at San Francisco, the *failure* thus heralded by the *Commercial* will probably make him feel. We have always understood that Mr. Holladay did not wish to buy the iron now in store at San Francisco, on account of its unpaid taxes for the road. The *Commercial* has, no doubt, found a mare's nest.

BENEFIT TO MISS CUMMINGS.—The members of the Bates Troupe have tendered a benefit to Miss Nellie Cummings, to take place this evening at Oro Fino Theater, on which occasion the popular drama of the "Hidden Hand" and the farce of "The Virgin Diamond" will be given, with a full and strong cast. Miss Cummings has worked a long time for the amusement of the Portland public, and while she has not proven herself a great favorite, she has always been a pleasing one and has often acquitted herself to such advantage as to compare favorably with those who are of stock performers. She deserves to have a good house this evening, and we shall hope to see her duly acknowledged by the theater going public.

OVERBOARD.—Captain Tommy, of the crack craft *Ariel*, had the misfortune yesterday morning to shift his ballast so bluntly while standing just on the verge of the wharf, and to go overboard, kerchug, into about twenty feet of water. Those who witnessed the involuntary dive say it was a little the neatest performance in that line they ever saw, the captain going like an arrow to the bottom and then arising again to the surface as if sent up by a submarine twenty-four pounder. There was an immense barf, in which the good natured captain joined as soon as he ceased his wind.

OH, WHAT A PUDDLE!—Everybody's particular friend, Bliss, arrived home by the last steamer, and appeared on the boat and wharf yesterday wearing a little the "biggest plug hat ever seen in these parts, and such a suit of good clothes!" But for all that, everybody seemed to know him and to be tarnation glad to see him. Bliss is not proud, if he has been to Washington, and if he has good "biz," and so there was jolly meetings and cordial hand shakings, all round.

A BEAUTIFUL BOUQUET.—Our sanctum was made bright and fragrant yesterday by the receipt of an exquisitely arranged bouquet, composed of the richest and rarest flowers of the season. The fair donor, whose name we are not at liberty to disclose, has our thanks for her gift. It has bestowed some genuine sunshine around upon the dingy and cobweb-covered walls of our editorial den.

OUR CUSTOM HOUSE.—In answer to our inquiries about the law relating to the United States the Jurisdiction of the site of the Custom House and Post Office in this city, the *Bulletin* says that such a law was actually passed and that a certified copy of it was sent to the Department at Washington some time since. The building commissioner will probably be notified of it in a few days.

ON LEAVE OF ABSENCE.—Lieut. J. A. Waymire, of the 1st U. S. Cavalry, stationed for a long time at Camp Lyon, is at present in this city with his family, on sixty days' leave of absence from his regiment, which has gone to Arizona. The Lieutenant has many old friends here who are glad to meet him after so long an absence.

FUNERAL.—Among the arrivals by steamer *Oriflamme* we observe the name of the Rev. Dr. Schwab, who has been two or three months absent at the East. He brings with him his wife, whom he met at New York, just out from Germany. The Rev. gentleman is warmly welcomed back by his numerous personal friends.

INFORMATION WANTED.—A gentleman of this city has received from Martinsburg, Keokuk county, Iowa, a letter making inquiries concerning a Miss Mary Nickles, or Nichols. She was heard from by letter last fall, when she was at Portland, in good health. Her friends are in great anxiety concerning her.

STOCK TAKEN.—We learn that the Tualatin Navigation and Manufacturing Co. has disposed of about half its stock in Washington county. The enterprise and public spirit of our Washington county friends deserve, if they do not win, success. The work of improving the Tualatin river will go on at once.

OSWEGO IRON WORKS.—The *Commercial* says: "We learn that the Oswego Iron Works have ceased operations for good. The reason assigned is, that the works have not proved as remunerative to the company as was at first supposed. We regret to learn this and hope that it may prove groundless."

HOTEL AT EAST PORTLAND.—We are informed that Mr. Thos. Atkinson is laying the foundation at East Portland for a hotel, to be twenty-five by thirty-six feet, and two stories high. Such an institution is much needed at East Portland.

A CAT KILLED BY A RAT.—Mr. Ira Mayfield had a large sized tom cat killed, yesterday, by a rat, which seized him by the throat and so cut him with its teeth that he bled to death in a short time. Cats are nowhere in a row to claw and tooth to tooth encounter with Portland rats.

OPPOSITION.—The steamboat opposition inaugurated by the *Wasat*, on the down river trade, has had the effect to greatly stimulate travel. She brought a considerable number of passengers yesterday, many of whom seemed to have come up just because they could travel cheap.

DISAPPEARANCE OF THE ORIFLAMME.—Everybody has heard of ships sailing slow on account of being imbedded by barnacles. That was, however, not the cause of the detention of the *Oriflamme*. She was detained on account of having *Bites*.

WILD STRAWBERRIES.—Expeditions into the country for wild strawberries are becoming frequent. In some localities these delicious berries are quite abundant, but as yet there are few or none except domestic varieties in the market.

COMING.—Senator Williams and wife are probably in San Francisco by this time and may be expected here on the next steamer. Benet & Corbett and wife are expected sometime during the month of June.

BEING MOVED.—The building lately occupied by Alsky & Hogle is now being moved up First street. Messrs A & H are occupying the building adjoining Fisher's restaurant and ice cream saloon.

SHIPMENT OF PIG IRON.—A considerable quantity of pig iron was brought down yesterday from the Oswego Iron Works, to be shipped per steamer *Oriflamme* to San Francisco.

EAST PORTLAND BANK.—This institution is said to have been opened for business yesterday. It is under the management of Messrs Lownsdale, Stephens and Boyd.

FROM ASTORIA.—The sloop *Clinton* arrived yesterday morning from Astoria, with about two tons freight and several passengers who are on a sort of excursion.

FREIGHT FROM SAN FRANCISCO.—The steamship *Oriflamme* brought up about three hundred and fifty tons freight, consigned to Portland houses.

RIVER STILL RISING.—The back water from the Columbia is still swelling the volume of the Willamette. The lower portions of the wharves are already submerged. The O. S. N. Co.'s slower wharf-boat is by a foot in the above water.

MEETING.—The several committees appointed to make arrangements for the Fourth of July celebration are requested to meet at the Council Chamber this Tuesday evening at eight o'clock.

STRAWBERRY FESTIVAL.—The ladies of Trinity Parish are to have a strawberry festival this evening at the vacant corner of Oak and Second streets. Everybody invited.

MARKET SQUARE IMPROVEMENT.—The market square in the southern part of the city is being encircled by a substantial fence.

T. SOUL.—The steamship *Oriflamme* will sail for San Francisco, this morning afternoon at 6 o'clock.

WASHINGTON GUARD.—Meeting of this company this evening for parade and inspection.

Females, Take Notice!—A Special Meeting of the Female Brethren of will be held at the Armory of the Emmet Guard, on Tuesday evening, 25th inst., commencing at 7½ o'clock.

By order of
JOHN SWEENEY, Centre.
JOHN DONOVAN, Sec'y.
Portland, May 24, 1869.

Attention, Washington Guard!—You are requested to meet at your Armory punctually at 7½ o'clock P. M., THIS DAY, for Dress Parade and Inspection.

By order of the Captain.
S. V. FULLER, O. S.
May 25, 1869.

THE RAILROAD TERMINUS.—By the arrival of the steamer *Oriflamme*, it will be positively known where the Railroad Terminus on the Sound will be established, and before long an army of men, equal to that of the grand Pacific Railroad, will be employed who will build the road with all possible speed. The Depot, without further doubt, will be established at the well known house of KOHN & FISHEL, No. 91 Front street, where the finest, best and most stylish Clothing, Gents' Furnishing Goods and Dry Goods can always be had, at such low prices that the most crabbed purchasers must be pleased.

ONE POUND of *Kane's Condensed Soap*, dissolved in boiling water makes FOUR GALLONS of very superior Soft Soap.

AN OREGON BOOK!
JUST PUBLISHED,
JOAQUIN,
ET AL.
BY CINCINNATUS H. MILLER,
1 vol., 16 mo., 112 pp. Handsomely bound in Cloth. Price $1 50.
What the Press Say of It:
"Nothing is hazarded in pronouncing this one of the handsomest things in American Poetry."—*Oregonian.*
"We consider these as among the best Poems, taken altogether, ever published in Oregon."—*Herald.*
THIS VOLUME IS THE BRAIN-WORK OF THE pioneer poet of the North-west, and should find a hearty welcome in every household throughout Oregon, Washington, and Idaho. It is also a most fitting souvenir to forward to friends in the Atlantic States.
Copies mailed free to any portion of the Union on receipt of price.

We have not space to enumerate several more queries that present themselves; but while we do not wish to detract from the merits of the "Buckeye" or "Sweepstakes," we would caution Farmers not to be BLINDED and MISLED by *windy representations garbled reports and statements*, but to look about and make a *personal examination and comparison* of the various IMPROVEMENTS lately made on harvesting machines, before buying. *If then* not fully satisfied as to which is the BEST MACHINE *we will allow any purchaser* the privilege of working a "Clipper" alongside of a "Buckeye Mower;" a Dodge's Improved "Nine and Buckeye Hand or Self-Raking Reaper and Mower of the *new style* alongside of a "Buckeye Self-Raker;" or a Pitt's "Challenger" alongside of a "Sweepstakes;" he agreeing to *keep and pay for the machine preferred.*

We *invite and challenge* THIS SORT *of competition*, not fearing the intelligent farmer's choice. Such trials are more satisfactory to the farmer than all this "claptrap" of prizes awarded and high sounding statements of superiority. More anon.

TUESDAY MORNING MAY 25 1869

Industrial Condition of the Country.

The great industrial prosperity of our country is a fact which no observing man can fail to notice, and it is a fact, which renders quite harmless and ridiculous the gloomy dissertations of croaking pessans, who spend their time in arguing the country is becoming poorer year by year, and going to perdition by express train. Consider the rapid increase of our population and the amount of wealth which is thus added yearly to the country. Since the close of our war a million and a quarter of people from foreign countries have sought a permanent home in the United States. Our statistics show that these immigrants bring to this country specie, or its equivalent, to the average amount of $80 per head, while their value to the country as producers is almost incalculable. Competent authorities estimate that not less than $700,000,000 has been added to the wealth and resources of the country by foreign immigrants since our war came to an end, and this cannot be considered an extravagant estimate when it is remembered that these immigrants are nearly all industrious laborers and producers. Here, then, by immigration alone, we have been furnished during the last four years with means and resources enough to more than pay the interest on our public debt during that time. The increase of population is attended by an increase of the number of persons; by the erection of more manufacturing establishments, by the construction and operation of a larger amount of machinery, and by an increased development of all the resources and industries of the nation. We have private more acres by many millions than we did in 1860,; we produce more corn, wheat and live stock than at any former period; our mines yield more gold and silver, more iron, copper and coal, than before the great war; we have more cotton and woolen mills, make and use more agricultural machinery and operate more miles of railroad than ever before. In 1860, the number of cotton spindles in the United States was 5,235,727. In 1868, the American Cotton Planters and Manufacturers' Association reported over 7,500,000 spindles in operation. The number of woolen manufacturing establishments has increased even more rapidly. In seven States, viz: Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa and Minnesota, the number of these establishments in 1860 was 259, with a capital of $16,616,740. Statistics collected by the Northern Woolen Manufacturers' Association show that the number of establishments in these States in 1868 was 557, with an aggregate capital of $5,488,000. The value of the products of these mills during the same time has increased more than ten fold. We can find an example of this increase even in Oregon, where there was but one establishment of this description in 1860. The number of pounds of pig iron produced in the whole country in 1860 was 913,770 tons. The product of 1868 was 1,550,000 tons. There has also been a vastly increased production of coal and petroleum. In 1862 there was mined 7,499,550 tons of anthracite coal; in 1868 the product was 14,000,000. In 1862 we exported 10,887,- gallons of petroleum; in 1868 the exportation reached 100,000,000 gallons. We might go through nearly the whole range of industries and find like results. The production of cotton in the Southern States is reviving, and in two or three years it will be quite as large as it was before the war. This is giving the leading Southern industry, it was, of course, prostrated by the war, and cannot be expected to reach at once its former prosperous condition. But there is a vast improvement in every other principal industry. Our people are making new farms, building better and better houses, constructing new lines of railroad and establishing new routes of commerce; the soil yields every year more and better products, machinery is coming into general use to relieve man of the drudgery that has heretofore had to perform with his hands, and at no former time has there been greater encouragement in any line of steady industry. The evidences of these things appear in every State of the Union; there are proofs of improvement and prosperity on every hand. How contemptible, then, are the croaking partisans who are always predicting disaster and ruin, and declaring that the people cannot much longer bear up the adverse circumstances surrounding them.

A New Doctrine of Equality.

The two Democratic organs at this place appear to have made an equitable division of labor "issues." The *Commercial* makes a specialty of "niggers" and the *Herald* makes a specialty of bonds. The first named paper, in its issue of Saturday, contains the follow-

> The amalgamation problem is too heavy even for the OREGONIAN; and he can only poke fun at one whose knowledge of events leads them to fully believe that amalgamation will be made an issue." In less than a twelve month the people will go forth that loyal States must repeal laws preventing whites and blacks from marrying and being given in marriage. * * * Amalgamation follows equality, or else there is no equality—for the startling proposition is plain that to be equal is to have the right by law to intermarry. In all races men and women are free, and unless restrained by law, will violate laws of God and man; and amalgamation is forbidden by God, and the laws of man. The weakness mentioned renders necessary the laws—hence their existence. Thus we say when any man favors equality, he at the same time favors amalgamation.

The reader of these extracts may be disposed to say that it is rather small business for people who might be better employed, to spend their time in refuting such notions as are set forth above; but it should be remembered that there is a multitude of persons who entertain these very notions and make them the basis of their whole political action. It will be perceived that the underlying idea in the mind of the writer in the *Commercial* is that white people generally, unless restrained by legal enactments, will rush right in and marry negroes! In this opinion we differ widely from the *Commercial*. There is no necessity for the enactment of laws to prevent the intermarriage of the races, nor can such intermarriage be prevented by any such method. All the laws ever enacted to prevent such intermarriages are equally ridiculous.

The *Commercial* seems to think that if such laws were repealed such marriages would immediately become frequent, and that white men and women would commence marrying at once with persons of the colored race. "The startling proposition," says this paper, "is plain to us, that to be equal is to have the right by law to intermarry." This proposition, only, is a "startling proposition." It strikes us wonder at the resources of the human intellect. The proposition is nothing more than this, that if people have the right by law to intermarry, they are thereby placed on terms of perfect social equality, and *will* intermarry! Such an argument might be thought enough with a lamp post for its second.

but with men and women who only associate with them intimately it is such. Does the *Commercial* ever notice that though the differences of wealth and social position have the right by law to intermarry, they do not intermarry, neither are they socially equal? There are thousands of white persons who are denied by the Democratic leaders an equality of social privileges. They are not admitted into first class Democratic families except as servants. These first families and their servants do not intermarry. And there are classes to whose members the question of the advantage is the talk of society for half a generation. Now does the *Commercial* believe that legislation is necessary to protect the higher classes of white people from the matrimonial designs of the lower classes? There is just as much need of it as there is of laws to prevent whites and blacks from intermarrying. It is amazing, indeed, to find people whose ideas are in such confusion, and still more amazing to find the unparalleled sincerity in the belief that if different classes and races have the right by law to intermarry, they are therefore socially equal and will intermarry. This is indeed a new doctrine of equality. The idea proclaimed some time ago, that if negroes were allowed to vote they would be equal, socially, with whites, was ridiculous enough; but this new doctrine of equality is the lowest depth of absurdity yet reached. The only excuse which we can offer for noticing it is that the doctrine is put forth gravely and earnestly as political argument.

"Editors and Things."

Under this head the Yamhill *Courier* of Saturday has some remarks which are specially pointed at his "lost cause" editorial brethren in this State. We suppose the *Courier* means to designate these impracticables as "things," in contradistinction from those live Democratic editors who scout the ideas of repudiation and of abolishing the Federal Government, and devote themselves to matters not so utterly whimsical. The "impracticable schoolmaster" of the *Herald* comes in for his full share of reproof from the *Courier*. We give some extracts:

> It frequently happens that persons well qualified for other pursuits, impose themselves upon a party as the conductor of a journal, who are no better qualified for a party leader, than was Bucephalus for a lady's riding horse.
>
> When an organ is encumbered with such a person there is but one course left to the party and that is to discard the paper as an organ.
>
> We are surely pained to find that organ that should be the leader of the party, promulging wild and fanatical dogmas, more dangerous than the heresies of the radical party—more radical than radicalism. When we believe that not more than one hundred persons can be found in the State that can be made to endorse such wild folly, it becomes our painful duty to ask our friend of the *Herald* to procure the services of some one (it matters not who) to do the pen writing for the establishment. A man of wilder schemes cannot be found, and if he be a man of greater folly and weakness he will be less capable of doing injury to a cause, the failure of which is the failure of our republic, and the success of which will promote the best good of our once happy country.
>
> We would not notice the *Herald* shebang, were it not for the position it was brought to, under its former management, and that it accuses us of attacking Democracy when we object to *abolishing* the government of the United States.
>
> Brother, you never will win any enviable reputation unless you get reconstructed. Quit your fanaticism and folly and you may yet make an editor.

In General.

Ice in San Francisco is sold to consumers at five cents a pound. At New Orleans it retails at one cent. Oregon might almost every year, supply California with pure ice. The article is now brought to that city from Kodiac.

The enterprise of Chicago is sleepless and all-pervading. That city has demanded space in the approaching Mechanics' Institute Exhibition, at San Francisco, the 14th September. The San Francisco *Mining Press* says "such a fact needs no comment."

The Philadelphia *Press* published the New York *Sun's expose* of the affair of John Russell Young and the Associated Press, and has been sued for libel. In speaking of the matter the *Press* cheerfully says: "We have been sued for publishing 'Young's Night Thoughts.'"

The "lost cause" organ at Richmond (Va.) the *Southern Opinion*, in suspending publication on the 1st inst., remarked that Southern principles were dead in the hearts of the people, and that no cause can long outlive defeat. The discovery of these facts by the "first families" is a healthy sign.

Alluding to the decision of Chief Justice Chase, which allows rebel defaulters to escape under the statute of limitations, the Sacramento *Union* says that the damage was done by the laches of a President who began with threats of "punishing and impoverishing traitors," and ended with trying to give them the whole political power of the nation as an inheritance.

In the course of a speech at the great railroad celebration in Sacramento, E. B. Crocker, one of the Directors of the Central Pacific, said that "the fully completion of this road has been in a great measure, due to that poor despised class of laborers called the Chinese—to the fidelity and industry they have shown—and the great number of those laborers that have been employed upon the work."

There is more grief for our amiable neighbor of the *Herald*. The coming debt statement will show a reduction of seven millions for the month of May. Every month since Grant became President has witnessed a uniform reduction of the debt. This is in accordance with Republican ideas of honesty and economy. While the incurable Copperheads are grumbling about the debt which their own party was the means of creating, the Republicans, addressing themselves to the requirements of the times, will pay it off.

Referring to the possibility of a war between the United States and Great Britain, and forecasting its consequences, a Montreal paper says: "Our territory (British North America) would be the bloody battle field. The horrors enacted in Virginia would be repeated here a thousand fold. Our connection with England would cost us this, while she would be compelled at a cruel disadvantage to waste her blood and treasure in her efforts to defend us. England is our weakness in the event of such a war, and we should prove to her not a source of weakness only, but of national humiliation. Is it not time to ponder these things and ask how long four millions of people ought to hang like lubberly boys to their good old mother's apron strings? What a release it would be to England if she were released from the undoubted duty of defending Canada in case of war! Suppose we should undertake our own defence and pay for our own canoe? We have no cause of quarrel with the States, and but for these international questions, which are foreign to us, we might live with them in perpetual peace and good neighborhood."

The Eugene *Journal* reports that there is a school teacher in one of the Lane county districts who gets blazing drunk, boasts of his exploits with Price's army, and uses too most filthy language. We'll bet he's a republican Democrat of the *Herald* stripe.

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO, May 24.—Arrived—Brk *Yet* [illegible] Harris, attempted to arrest [illegible] Sunday, who was drunk and [illegible] Stockton Sutter Gen Harrold a sword and drew at man who had pistol. Harris finally succeeded in taking them to prison. The affair will be investigated by the Commissioners.

[illegible] for the Queen Charlotte Island coal fields today. Over [illegible] carriages were in the procession.

John Rae was arrested [illegible] by Mr Scott, officer of the Court, [illegible] Kearney Court and [illegible] Rae was a witness in the case and refused to testify. Rae belongs to the Legislature and is a very honorable man.

General Order No. 13 announces the assignment of Brevet Major General W. H. Whipple, Adjutant General of the Department of the Pacific.

Steps are being taken by certain parties to construct a street railroad on Second street from Howard street to the water front, near the Mail Company's wharf. Work will commence as soon as the contract is signed.

The sailing of the steamer *Golden Gate* for Panama has been postponed from May 29th to the 1st of June.

Monday.

Gold in New York today 141½ 142½.

Five twenties 112, 124; five twenties of 67, 109.

Wheat $1 32½@1 40, good milling, $1 50, good to choice, $1 50@1 55. Market firm, supply light and demand good.

Barley Feed, $1 20@1 30; brewing, $1 40@1 50.

Oats—California quoted at $1 40@1 70, and Oregon, $1 60@1 75.

Shipping.

Arrived, May 24—Ship *Comet*, [illegible] days from New York.

Arrived, May 24th—Ship *Revere*, 9 days from Burrard's Inlet.

Arrived, May 24th—Ship *Cooper*, 10 days from Nanaimo, ship *Marmion*, 11 days from Port Blakely, bark *Osmyn*, 9 days from Seattle; bark *Kiral*, 10 days from Port Discovery, bark *Emma*, 10 days from Port Madison, barkentine *Victor Greenleaf*, 10 days from Teekalet.

Arrived, May 24th—Bark *Gen. Cobb*, 8 days from Victoria; bark *Jenny Pitts*, 7 days from Seabeck.

Cleared, May 23d—Bark *Moneyonck*, for Port Discovery.

BY ATLANTIC CABLE.

CORK, May 21.—Hogarty was to day elected Mayor in place of Sullivan, resigned. The ex-Mayor was assailed by the mob and threatened with personal violence for supporting the election of Hogarty.

MADRID, May 21.—In reply to Senor Castillo's speech, Admiral Topete declared he was opposed to the restoration of Queen Isabella, and thought the elevation of Montpensier desirable, but this was not said as a member of the Cabinet. As such he should strictly subordinate his action to the policy of the Prime Minister and Ministers of War who, with himself and all other members of the ministry await the decision of the Cortes for their guidance. He concluded by advising the Cortes to take care that no daring man shall cut the knot which they are unable to untie.

Article XXXV of the Constitution declaring that all power emenate from the nation was adopted by the Cortes to day by acclamation.

Article XXVIII declaring that the form of government of the nation shall be a monarchy, was passed, after a protracted debate, by a vote of 214 to 75.

LONDON, May 22.—Rev. Alexander Dyce, an eminent Shakspearean commentor and author, died yesterday, aged 71.

A new and duplicate telegraph to connect London with Valentia was completed. It will be used only for the transmission of cable business. Two Atlantic cables are in perfect order. Hereafter one cable will be used exclusively in sending dispatches from Valentia and the other for receiving. There is no longer any reason why messages should not be transmitted almost instantaneously between London and New York.

Reverdy Johnson sails to-morrow for Baltimore.

The difficulty with the Chinese Government, arising out of the persecution of Celestials, has been settled. Latest despatches from the British Legation at Pekin, state that the Mandarin who countenanced these proceedings has been removed from office.

PARIS, May 22.—General Dix, American Minister, to day had an audience with the Emperor, at which he introduced Washburne as his successor, and took formal leave of his Majesty. Washburne then presented his credentials as Envoy Extraordinary and Minister Plenipotentiary to France.

The general election for members of the Corps Legislatif commenced to-day. Voting in the city progressed quietly. Reports from all parts of the country show that tranquility prevails.

MADRID, May 22.—Ageseo, Minister for the Colonies, has resigned.

In the Cortes, Trieste, the Minister, replied to Castello's speech favoring a Republic.

Admiral Topete has been appointed Minister for the Colonies, ad interim.

Rumors say that Prince Augustus, of Portugal, will be put forward as a candidate for the Spanish throne, and that negotiations are on foot for his marriage to the daughter of Montpensier.

In the Cortes yesterday article thirty four of the national Constitution was adopted. A civil marriage bill has been introduced.

The Republican newspapers of this city assert that the recent vote of the Cortes only deferred the scheme of a Federal Republic, and did not defeat it. A Republic sooner or later, they say, must come through the absence of unanimity on the part of the majority of the Cortes.

Queen Isabella has proceed to abdicate in favor of her son, the Prince of the Asturias. Gonzales Arano, former Prime Minister, and others advised her otherwise.

NEW YORK, May 22.—A *Herald's* cable special says the *Independence Belge* learns that the United States Minister, Sanford, has sent his resignation to Washington. He did this in consequence of the action of the Senate with reference to his nomination as Minister to Spain.

The London *Times* has another editorial on the *Alabama* question, suggested by the recent speech of Forster. It says England has equal cause for complaint against America. Great Britain resisted the temptation to recognise the South, thereby inflicting sufferings on her own people and disobliging an ally. In fact it declared in favor of the North, and is now understood as being accused of hostility and selfishness.

Sir Francis Head has communicated several additional official documents to prove that assistance had been extended by America to the Canadian revolt in 1837. He asserts to his letter accompanying these documents that Sumner's language applies to that case as well as to the case of the *Alabama* but the English Government never claimed indemnity.

The Pall Mall *Gazette* has also a leading article on the *Alabama* claims question. The writer says whatever England did in respect to America, France did ten times for nothing. But our refusal of her invitation to recognize the Southern Confederacy saved the North from a more trying and doubtful contest.

The *Spectator* also discusses the question. It says the truths told by Forster, the old and staunch friend of America, must teach the American people how universal resistance would be if Sumner's demands are seriously proposed.

One of the greatest meetings ever assembled was held at Belfast, Ireland, to day to protest against the disestablishment of the Irish Church. It is estimated that nearly 200,000 persons were present.

The rejection of the treaty for the sale of St. Thomas by the United States Senate causes much comment at Copenhagen.

MARSEILLES, May 22.—The American schooner *Eagle* was abandoned at sea and her crew have been landed at this port.

OREGON.

The citizens of Salem are taking measures to celebrate its annual anniversary.

The students of Wallamet University gave an exhibition last week, the net proceeds of which were $140.

The teamsters at Eugene City have formed an association. They have fixed the rate of hauling at fifty cents a hundred down, and at one dollar and fifty cents per hundred to Portland and two dollars back.

Several citizens of Lane county will start to Puget Sound soon. We suppose they intend to settle over there and wait for the development of the country. Then will be back in two or three years, a mosbat wiser than they are now.

Says the Eugene *Journal*: Quite a large drove of young cattle was driven through this place on last Tuesday, bound for the Pitt river country in California. Cattle are becoming scarce in this part of the country, and command a high price compared with former rates.

The Late Tragedy Near Boise City.

The following is the Idaho *Statesman's* account of the late tragedy near Boise City. It states some particulars not heretofore published here:

One of the most sickening and heart rending tragedies that it has ever been our lot to record, has occurred almost in our midst. On Saturday afternoon about 4½ o'clock a man, or more properly a fiend, in the employ of Theodore Burmester, Esq., one of our most prominent lawyers, shot Mrs. Burmester after a vain attempt at outrage, fired the house and then killed himself. The particulars as far as we can learn from those who heard the statement of Mrs. Burmester, are as follows: That [illegible] entered her bedroom about [illegible] and made insulting proposals to her. She immediately ordered him from her apartment, when he sprang upon her, threw her to the floor, struck her violently with his fists and stamped upon her body. He then left the room as our informants afterwards proved, for [illegible]. In a few minutes, hearing his returning footsteps, Mrs. B. sprang to her feet, seized a shot gun and aimed it at the brute—the gun failing to discharge, he fired six shots at her from his revolver—one of which took effect in her right side, just above the hip joint, entering and lodging in the abdominal cavity, producing a danger us, and it is feared, a fatal wound. Upon seeing Mrs. B. fall to the ground, and thinking her dead the fiend went to his room in the second story, first setting fire to the building below. Mrs. B. states that after shooting her, she heard distinctly two shots from a revolver. It appears that after firing the dwelling house, he procured another pistol and shot himself. The shots failing to kill immediately, and becoming alarmed at the prospect of being burned to death, he attempted to escape, but fell upon the porch, where his charred remains were found. Mrs. B., after having fallen to the floor from the effects of the shot, supposing he had fired the dwelling, crawled with difficulty to the place where he had started the fire in the first floor, and made feeble efforts to extinguish the flames. She then managed to drag herself into the open air, where she was afterwards found, in an almost insensible condition by Mr. Thos. Bevans, who was at work in the field and had hastened to the spot upon hearing the shots issuing from the dwelling. A more heinous, atrocious act has never occurred in the annals of crime. It surpasses everything we have ever heard of Indian warfare, and only shows how nearly allied some men are in their instincts to the brute creation. Dr. Wagner was immediately sent for who hastened without delay to the house of Mr. Bixby, in the vicinity, whither Mrs. B. had been conveyed. The Dr. has given her case his undivided attention, and thinks there is a possibility merely of her recovery. Drs. Ballard, Drs. Bishop, Stevens and Thibodo were also present to render their professional aid.

The house was rapidly consumed, Mrs. B. barely escaping being burned by the timely arrival of Bevans, from the field, who carried her to a place of safety. Many circumstances prove this to have been one of the most deliberate crimes ever committed. For instance, the man was considerably attached to the youngest child of Mr. Burmester's family, and before firing the house he carried it out and placed it in a large wagon where he supposed it would be out of danger. Mr. Burmestor lived about six miles below town on the river road, and had left home early in the morning to attend a lawsuit in Payette valley, so that there was no assistance near except the man at work in the field. The oldest was with the man in the field, to which circumstance he probably owes his life, as John, it is said, entertained a great dislike to this child, and he would no doubt have taken this occasion to kill it or shut it up in the house to perish in the flames. The charred remains of the brute lay exposed all day Sunday and yesterday among the cinders and ruins a disgusting and horrible sight, though the only regret felt for him was that he was not still alive to suffer more deserved torture.

Gen. Thomas Swords, late Chief Quartermaster of the Department of the Cumberland, is going to Europe, after a continuous service in the army for over forty years.

Owing to the great demand for Burnell Hats, we have received another large invoice of them. For a summer hat there is nothing cooler or of prettier style. The Gaufrim, Cubas, Clayton, Barclay, and many others of the latest styles can be found at

J. C. MSUSSDORFFER & BROS.,
Cor. Front and Morrison streets.

PEOPLE SHARE—not with fear as to the future of Portland, but with the *Ague*, which can be cured in six hours and *no return* of the chills or dumb ague or its kindred ills, by using our celebrated and sure *South Carolina Ague Cure*. It is sold at the reasonable price of $1 00 per bottle. Call at "The Oregon Dispensary" for your Sanitary Medicines, for they are all pure, fresh and *cheap* and will be vouched for by the most eminent of the Medical Faculty in the city. Everybody patronizes the "Oregon Dispensary" in consequence of the above fact, and it requires five assistants to attend to the wants of our patrons. LORYEA & KALLENBERG,
73 First street, Portland.

NEW TO-DAY.

JACOB STITZEL. JAMES B. UPTON, Attorney at Law.

STITZEL & UPTON,
Real Estate Brokers,
AND GENERAL AGENTS,

Office—Corner of Washington and Front Streets, (on the Ground Floor), (Opposite the American Exchange.)

LOANS NEGOTIATED on Collateral Securities and First Mortgages on City Property.

Will attend to the Sale or Purchase of Real Estate in all parts of this City and State.

Houses rented and rents collected.

Special attention given to the sale of East Portland Property. We are prepared to furnish full and complete abstracts to City and Country Property.

The best Maps and latest surveys are at our office open to public inspection; and such information as would be useful to parties seeking land for speculation or occupation.

For Sale.

BY STITZEL & UPTON, REAL ESTATE BROKERS, corner Front and Washington streets, on King's place, adjoining the city of Portland, about 50 fine homestead lots. This property has been but recently surveyed and is now offered at reasonable figures, the size of each lot being 50 feet front by 157 feet in depth. A map of the lots can be seen at our office. Apply to STITZEL & UPTON.

FOR SALE BY STITZEL & UPTON:

The N ½ of double Block I, 200x200 feet square, on Washington and Tenth streets. A good bargain can be had by applying to Stitzel & Upton.

Also, all of Fractional Block J—6 Lots. Good improvements at the junction of B and Washington streets. Apply to Stitzel & Upton, Real Estate Brokers.

$1,000 will purchase the S ½ of Lot 4 in Block 203, with a good cottage house.

FOR SALE at $800, the North of Lot 4 in Block 203, corner of Market and Seventh. Apply of Stitzel & Upton.

For Sale at a Bargain—The West half of Block 203, on Park, between Market and Clay.

On Front and Water streets, between Clay and Columbia, Lots 3 and 6, in Block 112. A good bargain can be had in this property.

A few more choice Homestead Lots for sale on King's place. Three Lots have been lately laid out by Mr. A. H. Johnson, they are 50 feet front by 157 feet deep. Apply to Stitzel & Upton, Real Estate Brokers.

Now is the time for persons of limited means to procure a homestead on easy terms. For Sale—200 choice city lots, well located; 25 per cent. down, balance credit, give one to three years if desired. Apply to Stitzel & Upton, Real Estate Brokers, corner Front and Washington streets.

Choice Homestead Property for sale on Third street, between Clay and Market—a fine two story frame building. Price, $4,500. Apply soon to Stitzel & Upton, Real Estate Brokers.

We offer for sale, to parties desirous of investing in East Portland property, several choice tracts by the acre. Apply to Stitzel & Upton.

A GOOD BARGAIN can be had in lot No. 1 in Block 225. Good 1½ story house.

3,500 DOLLARS will buy that desirable homestead property, cor. Main and Eleventh streets, on the Chapman tract, 100x100 feet, facing East, with a large two-story house. Rooms all hard finished and all other improvements made. Apply to Stitzel & Upton, Real Estate Brokers, cor. Front and Washington streets.

ON FIRST STREET Good Business Property—The North half of Lot 6, and the South half of Lot 7 in Block 2, between Alder and Morrison. Apply to Stitzel & Upton, corner Front and Washington streets.

We have for sale quite a number of good Farms lying in the county of Washington, and other counties in the State. Good terms can be had.

FOR SALE—Quite a number of Lots and Blocks in Couch's Addition.

PARTIES desiring to make a paying investment in Business Property will find it to their interest to give us a call. We have a number of lots that will pay the purchaser over one per cent. per month and taxes on the investment.

☞ Apply to
STITZEL & UPTON,
REAL ESTATE BROKERS,
Corner of Front and Washington streets.

ROAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Roagland we feel pleasure in informing the public that it is far superior to the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw and is inserted or easily and speedily separated It rests on Gutta Percha so as to be entirely free from the rattling so much complained of in other vehicles It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient safe and secure
It is easy to change to this style of coupling any buggy or other vehicle now in use and with an old axle We have come to the conclusion to use this new invention ourselves and recommend it use in all cases We consider it far superior to the Brewster Patent hereto fore considered the best in use

Washington News

CHICAGO May 20 A Washington correspondent states that the desires of the Arabs on the slavery matter to have the movement originate with some of the leading naval powers of Europe and Asia and that the neutrals in time of war with a view of bringing about a general agreement on such points as are now in dispute

Two colored clerks have been appointed in the patent office

Commissioner Fisher has decided in the case that there shall be an examination of all applications and that those who do not pass said examination shall receive no patent

The Joint Committee on Retrenchment are preparing a visit to California to examine into the public expenditures on the Pacific coast They are to have a good time generally

The President, General Sherman the Cabinet officers and members of the diplomatic corps will participate in the decoration of soldiers graves at Arlington The departments will be closed and the day will be observed as a holiday Fisher Commissioner of Patents will deliver the oration

A citizens' movement against the present municipal government was inaugurated last night Meetings will be held composed of white and black men of both parties Several colored delegates have been selected to a nominating convention

WASHINGTON May 21 —The President has appointed James K McLean a partner of Orville Grant, the President's brother, Collector of Customs at Chicago, Edward Giddings Assessor of Internal Revenue for Washington Territory and Chas H Boise Consul at the Hague

Commander McCully died in this city to day He had been in the naval service sixty years

The commission to examine the Central and Union Pacific Railroad, consisting of Warren Blickendorffer Williamson and Clemens have completed their report and the commission has been dissolved From what could be ascertained of the report, they estimate that at the date of examination in February last an expenditure of $2 400 000 was required to bring the Central Pacific Railroad up to a first class road and equip it for through business with rolling stock depot machine shops, engines etc Two of the commission Warren and Blickendorffer think an expenditure of sixteen millions will be required to complete its locations Williams and Clements report that the road has been built on a location approved by the Government and is suitable to all service at present required Accompanying that report is evidence showing that since the examination by the Commissioners the Central Pacific Railroad Company have purchased rolling stock, machinery and iron to the amount of $4 500,000, the greater portion of which has been placed on or is now in transit over the road and the remainder will be delivered from day to day Upon the Union Pacific Railroad they report that at the time of their examination the sum of $67 000 000 was necessary to complete and equip 1 100 miles according to a first class standard, since which time the company have been constantly at work completing the road and placing on it the material necessary to fully equip the same according to the requirements of law The Commission also states that the basis in which the roads have been constructed resulted in deficiencies in location and construction which must be remedied to bring the road up to the standard of efficiency required by law No action has been taken by the Executive on the report

WASHINGTON May 22 —The President received General Clark, of Texas yesterday, who urged that the election should take place in August when the people will not be busy gathering their crops The President said he would have the State restored with as little delay as possible

A bill contracted by Secretary Seward in telegraphing over the Cable to Rev dy Johnson has been presented to Secretary Fish by the agent of the telegraph for payment It consists of a single item to the amount of $40 000 Seward it seems was allowed cheap rates on his messages and so he became rather verbose When this bill came he refused to pay it and it therefore fell to the succeeding administration Secretary Fish declined payment when it was presented to the President and sent to the Attorney General for his opinion, which that official is now engaged upon

The Government has received two cable messages from Johnson in regard to the attempt to secure the release of certain Fenian prisoners Action has been taken directly from the State department to call the attention of the Prussian Government to the case of Col Hulpine and others

Secretary Rawlins has determined to secure protection for the lives of Union men at the South He will probably declare martial law again in neighborhoods where these murders have been committed, and where the murderers are not given up he will arrest a number of sympathizing citizens and hold them as hostages till the criminals are given up

Fred Douglass Jr., on account of being excluded from the Printer's Union on account of color applied for and obtained a clerkship in the office of the Recorder of Deeds in Washington yesterday

The President has appointed Samuel B Rogers, of New Jersey a delegate to the seventh session of the International Statistical Congress to be held at the Hague

Samuel Henderson is appointed postmaster at Santa Clara Cal

The President to day informed Judge Paschal that the time for holding the election in Texas and Mississippi will not be decided until after the election in Virginia He thought the best time would be between the time of securing the grain and the commencement of cotton season Paschal suggested that the first Monday in August had always been election day in Texas The President said he would not direct one way or the other but if it was left to him he would proceed with the work of registration He remarked that he had appointed the first Monday in November Mr Moore has impolitely corrected himself by suggesting another day The President had been informed by a gentleman in whom he placed much reliance that the disloyal in the Union parts will be headed He earnestly hoped such would be the case

Brevet Major General Emory, one of the 5th Cavalry has been appointed Governor of the Soldier's Home near Washington

The monthly statement of the public debt for May will show a reduction of seven million dollars

Mrs Harriet Baldwin Macomb widow of Alexander Macomb ex Commander in Chief of the American Army died in this city last night aged 86

CHICAGO May 21 —A Times special says Seth Ward well known as a Washington lobbyist has purchased three iron clads of the Government The iron clads are the Atlanta Lay at Chicago and the steamer Fox at The authorities have no information of the case which Ward intends to make of those vessels nor who the parties really purchasing are

Fire at Atchison Kansas

ATCHISON May 21 —A fire last night destroyed Graham Washington & Co's double grocery store and the Champion and the Free newspaper offices adjoining including the contents Fraser and the editors private library and effects were damaged $5 000

Tennessee Politics

NASHVILLE May 21 —In the Senate to day and Stokes have each received a majority of eight and there will probably be two Democrats elected so that neither party will have a two thirds majority Much excitement prevails

Both houses met in joint session at noon to day each made a speech or night the respective partisans Senter said the time would be when the Confederates would be entirely out of power but was at present in the way of Democrats who were loyal and faithful to the Government and were determined to enjoy the rights of citizens

Miscellaneous

A remarkably brilliant meteor was seen in the early and late twilight evenings of last week and described by astronomers as a fireball of great splendor

The Herald states that Earl Russell has been appointed Governor General of Canada, but has declined the honor

Mexican advices state that the Liberal party is in the ascendant Juarez has been frequently in the interior of his State and says the Cubans will certainly succeed in their policy in harrassing the Spaniards by assisting a general engagement which may prevent reinforcements

The Government has made a demand to the Mexican Government for the surrender of Maximilian's property

A correspondent says the pretty well authenticated fact Minister Motley has received without his instructions which will be forwarded next month by express messenger

A report that General Rawlins will soon resign the Secretaryship of War on account of ill health and Judge Hoar succeed him is premature Judge Hoar declined the War office This report originated about a general agreement on such points as are now in dispute

Two colored clerks have been appointed in the patent office

Commissioner Fisher has decided in the case that there shall be an examination of all applications and that those who do not pass said examination shall receive no patent

The Joint Committee on Retrenchment are preparing a visit to California to examine into the public expenditures on the Pacific coast They are to have a good time generally

Waste in Transportation of Iron.

[From the Sacramento Union.]

The length of the Pacific Railroad from Sacramento to Omaha is 1,776 miles. It required 100 tons of iron for each mile, or 177,600 tons in all. The prime cost of this iron at Chicago or St. Louis was about $85 currency per ton, or $61 gold at present rates of exchanges. The average cost of transportation, first from St. Louis or Chicago—(1,000 miles by water or 500 by railway) to Omaha, and afterward over the line of the road itself, at a low estimate, must have exceeded by $40 in gold per ton what it would have cost the company had their rails been manufactured at some point in the Black Hills or Rocky Mountains, along their line where both iron ore and coal are known to abound. In other words, the transportation of their iron cost them just about as much as its prime cost at St. Louis. When, if they had been furnished with rails from manufactories, say at Salt Lake, or Laramie Plains, it would have cost but one-third as much. The prime cost of the iron for the whole road delivered at St. Louis was about $11,000 000. Add to this $11,000,000 for transportation, and we have the real cost to the company. Deduct two-thirds of the transportation cost—$7,333,333 50—and we have $14,666,666, what the real cost would have been had the company's rails been supplied at Laramie Plains or Salt Lake. But this is not the entire difference in favor of the argument for developing the interior iron mines, for the transportation costs on the Central Pacific end of the road were of course much higher than on the Union Pacific end. Every ton of railway iron delivered at Elko, 460 miles from here, cost over $80 in gold for transportation. And if it is said that this cost amounted to nothing because the company did its own freighting, we reply that every ton of iron so carried over the road excluded a ton of general merchandise which would have gone forward. If our figures are correct, the iron of the road has cost at least $7,333,333 1-3 more than it would have cost if there had been iron manufactories in the interior. Of course such iron manufactures were not possible at the time this road was being built. But the figures show how much can be saved in the future railway construction throughout the Rocky Mountain and Great Basin regions by the timely development of their iron and coal resources, and the reasonable stimulation of the various branches of the iron business by State and National aids. There are now 55,000 miles of railways in the United States. The country between the Mississippi and the Cascade and Sierra Nevada ranges embraces full half of the area of the United States. In twenty years, its progress in gold and silver mining, and in agriculture, with the growth of the Asiatic trade and the intercourse between California and Oregon and the Eastern States, will demand a railway system numbering, besides the Northern and Southern Pacific, many branch roads, feeding and connecting all three of the great through lines, and aggregating not less than 20,000 miles of new road. If the interior iron mines and iron manufactures can be developed as they should be, so that rails can be turned out of iron works in Utah, Arizona, Colorado, Montana, Washington and Wyoming as cheaply as they now are at the works in Carondolet, near St. Louis, or at Pittsburg, Pennsylvania, this great railway system will cost a hundred millions in gold less than it would if built as the first Pacific railway was. Moreover, while this great saving is being so managed the same economy will be rapidly building up new States, adding hundreds of millions to the taxable wealth of the nation, and cheapening and greatly enlarging the product of the precious metals, by furnishing cheaper and better machinery.

An Oregon Book.

The Oregon correspondent of the Sacramento *Union* writes:

"The papers are announcing and criticising "An Oregon Book." "Joaquin et al," is the title of a very little volume of poems written by C. H. Miller of Canyon City, in the Blue Mountains. This gentleman is more commonly known as Judge Miller, being County Judge of his county. He has practiced law there for several years, lived before that in southern Oregon, and still before that in Crescent City, so I am told. In literary matters Mrs. Miller is more noted than he, having written a number of piquant sketces from Canyon City under, or over, the nom de plume of "Minnie Myrtle." It is rather a pity she discontinued them, though it may be the public benefit, as she is said to have some literary work in course of preparation. As to the poems in question, and some others written by Judge Miller, they possess some special merit, while they show an occasional crudity or solecism. The great error of the author has in giving way to a tendency to say impropes things in an impossible manner. There is an occasional effort at the startling and tragic, which has more the appearance of affectation than of genius. Without particularizing the matter, for the little volume will probably reach you and receive due notice, I will comment it to your consideration as the first thing emanating from Oregon claiming to be poetry, really worthy of the name. With all its faults and they are abundant—there are many re[deem]ing that are attractive for purity of rhythm and poetic thought. Poets are an uncertain set; few of them are of the well regulated class like Whittier and Longfellow; most of them are like wilful harps and sing wild songs, swaying in volume from the [gen]tle zephyr to the tropical hurricane; caught from the passing world and told with all the world's passion and unreason in them. A verse from our Oregon poet describes them well:

"... that shroud the to-morrow,
Glints from the life that's within:
Threat of pain and sorrow,
And may be a trace of sin;
Musings for God in the darkness
And for—what sh[all] have been."

Public opinion has compelled the New York Legislature to a consideration of Governor Fen[ton]'s vetoes. The plan of the plunderers was to pass them over in silence, without a direct vote, if enough members could not be attached to set aside the vetoes. On Friday the veto of the bill granting State aid to a [rail]road was sustained in the Senate by a large majority. It is a gratifying fact that on this vote a majority of the Republican members aided with the Governor in his opposition to legislative extravagance and corruption. Mr. Henry C. Murphy, a Brooklyn Senator, and a prominent leader of the New York Democracy, opposed the veto, and a split in the party on the question is threatened, one wing, opposed to State aid, to rally [to] Mr. Murphy, led by Governor Hoffman, and the other in favor of such measures accepting the leadership of Mr. Murphy.

THE WILLAMETTE FARMER.

Devoted to Agriculture, and the other Industrial Interests of the North Pacific Coast.

RECOMMENDED BY THE STATE AGRICULTURAL SOCIETY.

THE NECESSITY WHICH HAS SO LONG EXisted in Oregon for a Journal where Farmers and other laboring men could meet and discuss their mutual interests, is obviated by the establishment of the WILLAMETTE FARMER.

The paper will advocate and labor for all interests that will advance the prosperity of the Farmer and Mechanic; and will have in view especially the encouragement of the cultivation and improvement of the soil, and the agricultural development of the State; fostering every branch of mechanical and household arts calculated to increase the happiness of home life; and extending and facilitating the various branches of Agriculture, Stock-Raising, and Mining and mining interests.

Especial attention will be paid to the department of **Domestic and Eastern News.**

And the subscribers to the FARMER will receive each week a careful and complete synopsis of all the news of the State and adjoining Territories, compiled from exchanges and other sources, as well as a summary of Eastern telegraphic news,—thus furnishing our readers a complete

Agricultural Newspaper!

MARKET REPORTS!

Carefully corrected Commercial and Financial Reports will appear weekly, giving the New York, San Francisco and Portland prices current, as well as those of a local character.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW HOPE!
Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of long standing) and Ulcerated Leg successfully treated.

Horrible Disease!

How many thousands of persons, both male and female, are there who are suffering untold agonies from the effects of secret indulgence, absorbed into the system! Look at their pale and disfigured faces and their broken constitutions, disqualifying them for the happiness or the enjoyment of life. In this horrible disease many sufferers until death closes the scene. Let parents, guardians, friends, attend to these symptoms in time. Many of these horrible-life-destroying maladies they are cured for and cured before it be too late. Many unfortunates have put themselves in the hands of Dr. Gibbon, and have been made private diseases his especial study for years, and he is certain to cure the most inveterate case of Gonorrhœa or any injurious drugs. It is to those who are afflicted, or to those who are the friends and welfare of their friends, to be careful of the ignorant and unskilful doctors who infest all cities, failing in curing all diseases in a few days, and publicly by using the names of eminent men of Europe and other places. Be there careful—strict inquiry, or you may fall into the hands of charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of solitary vice, or deprived sexual intercourse, by the young or both sexes are always accompanied by a weakening, with unerring certainty, of the most horrible symptoms, unless counteracted by judicial measures. viz: Sallow countenance, dullness of the eyes, pain in the head, ringing in the ears, the rustling of leaves and rattling of carriages, about the loins, weakness of the limbs, blunted intellect, loss of confidence, timidity, avoiding strangers, a dislike to female society, those of a disposition to shun society, those of a flushed face, pimples and various eruptions on the face, furred tongue, fetid breath, coughs, consumptions, nocturnal emissions, and frequent [illegible] not obtained, should apply immediately, personally or by letter, and have a cure effected by the only true mode of treating this disease. Where there is no effecting a quick and radical cure. Dr. Gibbon offers One Hundred Dollars to any person who will bring to him that has ever been cured of this disease by any of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are aware of the many fearful maladies, should consult a sacred responsibility resting upon them, should obtain immediate relief.

DOCTOR GIBBON is responsible, and will give a patient a written instrument, binding himself to a permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be cured at home by addressing a letter to Dr. Gibbon, describing symptoms, length of time the disease has existed, and medicines promptly forwarded. Free from observation, to any part of the country, with full directions for use. For Ten Dollars, sent by express or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and imposters who, with bogus sworn-to certificates, flood the State of Oregon, the selfstyled doctors, whose names can be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and will be found to work at their trades. Some are shoemakers, newspaper carriers, hide[illegible] etc. Look over the San Francisco papers, and you will not find their former occupations in their cards. Gibbon has been in practice for 1860 and 1853. The only reason why he is not in practice is because he will not lend his name to quackery—if he will come to see him, you may save yourself many regrets; for, as in all other certains, in eight cases out of ten, you will be the sufferers in trusting any of them until you know what they are. Dr. Gibbon does not advertise by exhibiting bogus titles, certificates, [illegible] letters, etc. Dr. Gibbon will satisfy you by a personal call at his office of his ability to treat any disease he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 262.

REMEMBER TO PUT BOX 262 ON THE LETTER.

Consultation FREE.

Correspondents will please inform Dr. Gibbon that they read his advertisement in the Daily Oregonian.

FROM OREGON CITY.—We clip the subjoined items from the *Enterprise* of Saturday:

During the current month 13,000 acres of public lands have been located at the Oregon City Land office—by the Albany and Cascade Wagon Road, and 6,000 acres by the Corvallis and Yaquina Bay wagon road.

The young ladies of Oregon City, appreciating the worth of music in the place, have decided upon giving an entertainment for the benefit of the Oregon City Brass Band, at the Court House, on Monday evening next.

Mr. Wm. McCubbin, near this city, met with a fearful accident on Sunday last. While in his cow yard attending to stock, one of his brutes gave a side toss of the head, when its horn entered Mr. McCubbin's mouth, passing out at the left cheek.

On Sunday last something quite unusual occurred amongst the fish of the Clackamas, by which whole schools of salmon were stampeded, so to speak. They were observed to leap over the mill-dam, headed down stream, in perfect swarms; and boys, living along the banks, waded into the water, killing large numbers with stones. The stream was literally alive with salmon. It is said that the stream, which is always clear and pure, was considerably muddied next day, and it is not at all unlikely but that high up the river a land slide may have occurred.

No clue could be ascertained as to the manner in which the unknown man found in the river by Mr. Kruse, met his death, or as to who he was. He was decently buried by order of Coroner Dr Barclay. The body was found in Pudding river, on May 15th, 1869. It was so much decayed that it was impossible to recognize it. Both hands were off at the wrists. The flesh of the face and hair of the head were also gone, and two front teeth were missing. Deceased was evidently about 40 or 45 years of age. He had on tweed pants, checked flannel shirt, a heavy leather belt, and heavy boots. Fragments of a blue flannel coat were found near by.

EVERYBODY WANTS 'EM.—There is one thing which nobody ever objects to except rogues—business puffs. We rarely ever get through a day without meeting with several excellent opportunities to advertise somebody's business, gratis. We often feel honored by the eligible offers we have to work for somebody else's benefit, and sometimes regret that the law of checks and balances—in Latin, *quid pro quo*—inexorably restrain us from just devoting ourself and the OREGONIAN's local column to the service of the general public. If the newspaper business could flourish on nothing, it would be delightful to just pitch in and wear one's self out in scribbling free puffs, free announcements, free everything, but newspaper lamps won't burn without oil—a discovery made a good many years ago, though apparently not generally known outside of the family. When this discovery was made, an ingenious man invented the "advertising department" and the idea of *paying* for business announcements. That is to say, if you work for us, or sell us goods, we pay you an equivalent; if we work, or what is the same thing, advertise, for you, you pay us an equivalent. That's business, queer as it may seem to the hunters of free puffs. Nuff sed.

ROLL OF HONOR—NORTH SCHOOL.—Grammar Department—Mary Sparks, Sarah Sparks, Martha Tucker, Clara Graves, Lydia Humphrey, Emma Bowman, Lottie Stryker, Laura Camp, Ella Strang, Mary Gibson, H. Parker, A. King, A. Versteeg, A. Kohn, A. Smith and F. Hill.

G. S. PERSHIN, Principal.

Intermediate Department—Lilly Johnson, Orra Sparks, Helen Latham, Mary Shindler, Mary Loomas, Clara B. Cutta Stewart, Euphemia Knott, Alice Carley, Lottie Sherlock, Rhoda Slaughterback, Minerva Jackson, Mary Boone to, Anna Zimmerman, M. Wallace, B. Kellogg, C. Hogan and J. Bequette.

MISS BRYANT, Teacher.

First Primary Department—Mary A. Martin, Sophia Shattuck, Anna Snow, Mary Lawrence, Etta Bolsford, Ella Cook, J. Fogelski, E. Handly, Q. Hogan, J. Brown, W. Harvey, J. Depewing, W. Depewing, J. Harrington and W. Duber.

MISS L. HARVEY, Teacher.

BP. MORRIS.—The Rt. Rev. Bishop Morris writes that he will arrive at this city by the next steamer from San Francisco. The *Bulletin* of the 17th says: "The Rt. Rev. B. W. Morris, the newly appointed Episcopal Bishop of Oregon, preached his first sermon on the Pacific coast at Trinity church yesterday morning. In appearance he is rather tall and slim, and apparently about 40 years of age. He has a rapid style of delivery, with an easy flow and distinct enunciation. For many years, prior to his selection for his present position, the Rev. gentleman officiated as rector of St. Mark's Church, Germantown, Pennsylvania. His appointment as Bishop of the Diocese of Oregon occurred at the General Convention, held at New York in October last, when the Rev. Bishop chose him as specially adapted to the field. Bishop Morris succeeds the late Bishop Scott, who died about two years since on his way from this city to New York, and when almost in sight of his destination."

NO FAVOR, EH?—On Friday morning the following item appeared in the *Herald*:

"——, the man who gave himself over to Garfielde, was ready to accept a wager of $5 000 yesterday, in this city, that Governor Moore would beat Garfielde. He evidently has but little faith in the prospects of his new found pal."

In relation to the above, Mr. Fletcher writes:

"A. P. Ladd made the above offer to me yesterday, and let him know of P. O'Keane and several other gentlemen, and there told him I would take that bet, and he very kindly offered to put up $100 cash forfeit; that he would put up the balance. He then refused to let me put up $100 and refused to give me time to get the money. I will back my faith in Mr. Ladd's election with my farm of 320 acres, as good security in Washington Territory.

THOS. J. FLETCHER."

OFFICERS OF THE GRAND LODGE, I. O. O. F.—As given in the *Unionist*, the officers for the ensuing year are: A. M. Starr, of Oregon City, Grand Master; Wm. [illegible] Portland, Deputy Grand Master; Joel Palmer, [illegible] Wardens; C. N. Terry, Salem, Grand Secretary; H. K. Moores, Salem, Grand Treasurer; A. [illegible] Salem, Grand Representative. The appointees are: E. S. Knight, Salem, Grand Chaplain; F. [illegible] Portland, Grand Marshal; D. M. Thompson, [illegible] Grand Conductor; — Shelton, Walla Walla, Grand [illegible]; R. O. Geer, Silverton, Herald. The District Deputies are, District No. 1, I. W. Miller; 2 Archie Pease; 3, A. Holden; 4, J. L. Argner; 5, N. [illegible]; 6, D. M. Thompson; 7, P. Motschan; 8, A. Bonner; 9, J. Lyman; 10, [illegible]; 11, C. C. Hewett; 12, W. M. [illegible]; 13, E. Schutz; 14, D. S. Kinsey; 15, F. S. C[illegible]; 16, Jas. Riley; 17, A. J. Apperson.

PROMOTION.—Last evening, says the *Unionist* of [illegible], at the Odd Fellows' re-union, Dr. Loryea, for the [illegible] of the Grand Lodge, presented to P. G. M. Silas J. Day a fine, heavy Howard gold watch and chain, as a token of their personal esteem, and the manner in which he has performed his official duties within the past year. Mr. Day was completely taken by surprise, and so moved was he by this measure of the good will shown him by the co-laborers that he was only able to acknowledge the compliment, and promise always to try and be worthy of the confidence of his brother Odd Fellows. The watch is one of the finest timekeepers made at the Waltham factory, and was purchased of Mr. J. H. Haas, of this city, for $225.

U. S. DISTRICT COURT—DEADY, J.—The following are the proceedings of Saturday:

In the matter of W. H. Spencer; in bankruptcy, order for [illegible].

United States vs. E. Fox & Bros; judgment for $200 and costs.

In the matter of Muller and Brentano; continued until Saturday next.

J. E. McCabe; in bankruptcy, continued until Saturday next.

In the matter of W. C. Welman, in bankruptcy; hearing on petition for discharge, argued and submitted.

REAL ESTATE.—At Mr. Richardson's auction sale of real estate on Saturday, the following lots were sold at the prices named: Lot 6 in Block A, to George Pratt, of Oregon City, for the sum of $1,300. Lot 7 in Block A, to J. L. Atkinson, for $1,400. Also lot 8 in Block A, to the same, for $400. Lot 4 in Block No. 1, to Jno. Campbell, for $705. Also lot 3 in Block No. 1, to same, for $826. Lot 1 in Block 69, to John Clark, for $1,055.

FROM WHITE PINE.—Mr Alex Campbell has returned from White Pine, arriving here yesterday morning by the *Oriflamme*. He informs us, however, that he is going back again in the course of a few days. Alex looks as though White Pine had used him rather well. He says that since the completion of the Pacific railroad the miners are sending their ore to Chicago, being able to get more for it there than at San Francisco.

BOAT RACE.—A trial of speed was had yesterday between the sailboats *Flying Cloud*, Mr. Jas. Welch, and *Ariel*, Capt. Henry Twomey, in front of the city, starting from the O. S. N. Co.'s Wharf to opposite the Oregon Iron Works and back. The *Ariel* won.

TOASTS OF JULY.—Committee on Finance and Committee of Arrangements for the Fourth of July Celebration are requested to meet at the Council Chamber this (Monday) evening at ½ o'clock.

Per order of the Chairman.

THE ANNUAL MEETING of the Christian Church of Oregon will commence at the Pavilion on Lucreali, on Thursday, at 4 o'clock, before the third Sunday of June next.

State papers please copy.

U. S. CIRCUIT COURT—DEADY, J.—The following proceedings were had Saturday):

J. B. Newby vs O. C. R. Company, argument on demurrer to bill of complaint closed and submitted.

——, a man named Weiss, who was for some time engaged in the watch repairing business on First street, is reported missing since Friday night, as are, also, several valuable watches entrusted to his care.

ARRIVED.—The steamer *Oriflamme* arrived at this city at 4 o'clock yesterday morning, having been on the way from San Francisco since four o'clock P. M. last Tuesday. She experienced head winds all the way up.

THE CANNON.—The *Herald* says that the State's cannon had been placed—by what authority is not stated—in charge of Sheriff Zieber, who has removed it from the Plaza to a place of shelter.

MORE DEPREDATIONS.—The North Portland school house was visited last Friday night by some of the juvenile ruffians who infest the city. A window was broken and some other damage done.

POSTPONED.—The picnics appointed for Saturday and Monday were all postponed on account of unfavorable weather. Due notice will be given of the days selected for their occurrence.

ABSENT.—Judge Deady leaves this morning for a brief trip through the central, and perhaps southern parts of the State, and will be absent two or three weeks.

TELEGRAPHIC.

From the Telegraphic Reporter of the Associated Press.

TELEGRAPHING TO REPORTED GOLD DISCOVERIES.—On the headwaters of the tributaries of the Malheur river. Some three years ago, an old Californian miner named William Sprague was employed by the Oregon City Incorporated Mining Company, to prosecute the work on a quartz tunnel, specimens having been discovered previously in sufficient abundance and richness to lead to a firm belief of an extensive gold bearing lead. Sprague was employed several months in prospecting and working for his services he was paid the sum of $750. A number of specimens were found in digging the tunnel, which were sent by Capt. Hedges—at that time President of the Company—to the assay office in the city. The result of the assay proved a richness of $905 per ton. Want of capital and confidence on the part of the company prevented a further prosecution of the work at that time. Since the first discoveries, the company have from time to time employed Sprague to do sufficient work to hold the load, on which they now pay regular taxes as real estate. The tunnel has been extended back into the mountain about thirty-five feet. Specimens taken from the tunnel are reported to be of a rich bearing character, and only require time, capital and labor to develop into a rich mine. During the time which Sprague has been employed by the company, he has been frequently prospecting "on his own hook," and has discovered rich surface diggings along the bed of a small tributary of the Malheur river, called Lost Coffee Creek which will pay from $3 to $5 per day to the hand. These diggings extend along the bed of the creek for about eight miles. The creek runs through a deep defile or canyon to the Cascades, to accessible to either horse or wagon. The hills on each side on account of their steep acclivity, ruggedness and being densely covered with a heavy growth of timber have not been extensively prospected, but from the locality the indications are favorable for paying diggings. Sprague has sold one claim right and 300 feet along the creek to Wa Kee of this city for the sum of $750, who will shortly place a large number of Celestials to work. The mines are fifty-eight miles directly east of Oregon City, far back into the Cascade range. The facts, as related, were given to us by the man, Sprague.

FROM VANCOUVER.—The *Register* states that the annual assessment list for Clark county returns an aggregate property valuation a little short of $600 000.

The following are the officers elect of Lincoln Lodge No 1, for the present quarter: Joseph Wallace, W. C. T.; Mrs Lizzie Durgan, W. V. T.; Charles Brown, W. S.; Miss Jennie Rankin, W. T.; John P. Smith, W. F. S.; Geo. W. Webber, W. M.; Miss Molly Rankin, W. I. G.; Owen Piner, W. O. G.; Rev. C. Smith, W. C.; Miss Carrie Rankin, W. R. H. S.; Mrs Ellen Riggs, W. L. H. S.

The Union Labor Society of Vancouver will meet at the Metropolitan Hall on Thursday, May 27th, for the transaction of business. The object of the Society is, we understand, to endeavor to settle all difficulties which may arise as much as possible by arbitration, and to avoid lawsuits and costs.

RAIN.—We learn from Mr. Jamison that during the last week, there has been but comparatively little rain at Hillsboro and Forest Grove, while in the neighborhood of McMinnville, there has been even more rain than at Portland. The rain clouds have seemed to be drifted through the Scotch Yamhill gap, and thence along the river vallies to Portland, leaving the foot hills and plains next to the coast range, comparatively dry.

CLOSE OF THE THEATER.—We learn with sincere regret that Mr Bates has concluded to close Ore Fino Theater again. The business of the last week was not large enough to warrant such expenditures as would be necessary in the production in first class style of first class pieces, and Mr Bates is not disposed to do any second rate theatricals. We trust that the vacation will not be a long one.

HELD TO ANSWER.—Three boys one a negro and the other two white, were arrested on Saturday, on the charge of breaking into the Central schoolhouse and defacing and damaging maps, books and furniture. After examination before the Recorder they were held to answer, each in the sum of $200 bail, in default of which they were committed to the jail.

NEW PHRASE.—"Let's disinfect," was the style of invitation to take a drink during small pox times. "Let's drive the last spike," is the style now. This last phrase will do very well for young and gay and festive comers, but it will not be popular with old topers—too suggestive of "driving the last nail" in the coffin.

HOME AGAIN.—The representatives to the Grand Lodge I. O. O. F., returned from Salem Saturday evening. They represent the late session of the Grand Lodge as most interesting and the Order in this jurisdiction as in a flattering condition of prosperity.

MINERAL SPRINGS.—Prof. Veatch has lately been engaged in analyzing the waters of several mineral springs in the vicinity of Portland. It is said that one of these springs would produce borax in paying quantities if worked.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, May 23.—The Metropolitan Theater was crowded last evening to witness the first appearance of Geo. Francis Train in this city as a lecturer. The stage was decorated with American and Irish flags. Soon after eight o'clock Mr. Train made his appearance, escorted by some personal friends and one or two members of the press. The arrival of the party was greeted with applause, as the occupants of the galleries seemed to have become tired of waiting. Contrary to the expectations of the strong-minded women's party, which professes to regard Mr. Train as their particular and especial champion, there were but about a dozen ladies present. Train declares himself an Irishman and says he will be President in 1872. He advises the Fenians to effect an organization for the taking of British Columbia.

The Daily Oregonian.

MONDAY MORNING, MAY 24, 1869

Equalizing Fortunes.

The Democratic paper atAlbany presents an editorial article under the heading, "Repudiation," and says

That this doctrine is growing with the people is evident to the most purblind. * * * Democrats will accept the issue, and will from this time forth make perpetual warfare against bonds and bondholders, and favor repudiation to the bitter end. Antiquated and fossilized politicians may endeavor to make other issues for the Democracy, but that is nothing. Principles make parties; parties do not make principles.

This doctrine is *not* growing in favor with the people. A faction in the Democratic party who were bitter secessionists during the war, and who are mourning to this day for the "lost cause," desire to repudiate the debt; but such a proposition could not command the votes of one-third of the people, even in Oregon. We want nothing better than that the Democratic party should embody in its platform in Oregon next year this doctrine of repudiation, as plainly as it is set forth in the above extract from the Albany *Democrat* and in the following extracts from the *Herald*:

The bondholder has one lesson to learn and American labor will yet teach it. There are piles of paper bonds in the coffers of the rich bondholders, and there are little white strips of paper in the hands of the millions of white voters in the United States. These little strips of paper can regulate the value of the bonds. They must learn that their rights are protected only by the sufferance of the people, and that votes can prick the bubble of high-blown wealth, and equalize the fortunes of mankind.

Constitutions protect vested rights—the rights of property—but Constitutions themselves yield to the voice of the people * * * * Abolish protective tariffs and discriminating duties; abolish internal revenue derived from incomes; abolish stamp duties and all the modern appliances for raising revenue. * * * This policy will abolish the public debt in two years' time.

The idea evidently possesses the mind of the editor of the *Herald* that these doctrines are destined to become popular. He will find his mistake. He will find that such infamous and revolutionary propositions will become more odious as the people more carefully examine them. There are a few persons who have mounted the hobby of repudiation and are riding it hard.; but their party dares not listen to their counsels or make them its leaders.

"Votes can prick the bubble of wealth and equalize the fortunes of mankind." This is the *Herald's* doctrine. Did the editor ever stop to consider its consequences? Can he know that the people, if miseducated to the point of raising the property of the public creditors and "pricking the bubble of high-blown wealth," would stop there? If he does suppose so he has never read history to any purpose and knows nothing of human nature. If it comes to this the masses of the people will take him and his fellow agitators together, and proceed to give them a lesson in the process of "equalizing the fortunes of mankind." The editor of the *Herald* has a small property, the accumulation of a lifetime of ——— by labor. Though not large, it is quite large enough to tempt rapacity and excite envy. It is considerably larger than would be allowed him under his system of "equalizing the fortunes of mankind;" and when, by a practical and direct application of the principle he promulgates, the barriers which protect property are broken down, he would find the smallest hope of the meanest dividend in plunder sufficient to stimulate the worst passions of the multitude. The same morality which would justify the seizure of the property of the national creditors would justify the seizure of the property of those men who can argue so pathetically for the rights of the so-called poor, and advocate the doctrine levelling the distinctions of wealth and "equalizing the fortunes of mankind." The *Herald* directly encourages the striking of a blow which would instantly subvert all property. Let the editor plead his constitutional rights, and the answer, in his own words, would be ready, "Constitutions themselves yield to the voice of the people!" These "little strips of white paper can regulate property and equalize fortunes!"

He who does not know that the smaller class can be protected only by placing the larger beyond the reach of danger, has an important lesson to learn before he is qualified to speak on the subject which the *Democrat* and *Herald* undertake to talk about. The small properties will then prove a rampart about the wealthier, and the whole will be secure. The confiscations of the great revolution in France began with the seizure of the immense body of ecclesiastical property; before they ended all the rights of property were practically abolished; the "bubble of wealth was pricked," and there was an "equalization of the fortunes of mankind," effected on principles which it will do our cotemporaries good to study and consider. And they may thank their good fortune that the masses of the people of the United States are too intelligent and too honest to accept their advice and take a step which would inevitably result in the subversion of all property and give these editors a taste of their own principles. Let this be accepted as a fixed fact, that the rights of the public creditors can never be violated ——all the rights of private property are also overthrown.

Money in California.

The Commercial *Herald* of the 18th inst. gives the following in its money article:

Our local money market is working with almost accustomed regularity and ease, as—for the purposes of legitimate business—there is no difficulty in obtaining accommodation needed at 1½ per cent per month; but loans for speculative purposes hang fire. There is a strong disposition evinced to squash all movements in that line unless they are based on solid foundations. The savings and loan societies are making no loans at present. The number of homestead associations is so great, and the inducements they put forth to invest in lots are so captivating, that tens of thousands of dollars are weekly absorbed by them. The fever has got entire control of nearly the whole laboring population, who place most of their surplus earnings in lands instead of the usual public depositories. Large sums are also expended for the prosecution of extensive improvements going on all over the city; but the drain for prosecuting work on the Central Pacific Railroad will soon stop.

RAILROAD TIME ACROSS THE CONTINENT.—An Eastern paper, says the San Francisco *Bulletin*, places the actual running time by railroad from New York to San Francisco, via Chicago, at six days and fourteen hours. The apparent time is six days, seventeen hours and fourteen minutes, from which should be deducted or added, as the case may be, three hours and fourteen minutes, difference in time. The time table and distances are as follows:

	MILES.	HOURS.
New York to Chicago, Ill.	911	36½
Chicago to Omaha, Nebraska	491	24½
Omaha to Bryan	858	43
Bryan to Ogden, Utah.	233	10½
Ogden to Elko, Nevada, via Central Pacific Railroad	278	12½
Elko to Sacramento, Cal., via Central Pacific Railroad	465	21½
Sacramento to San Francisco, via Western Pacific Railroad	117	3½
Total	3,353	161½

COURTS ADJOURNED.—The United States District and Circuit Courts have adjourned to the second Monday in June.

In General.

The *Herald* declares that "the income tax should be abolished, and it will be. Yes when the debt created by the late Democratic rebellion has been paid.

The Pittsburg *Dispatch* speaks of the appropriations for the Indian Bureau as the "annuities which are supposed by some credulous people to go to the Indians."

A Democratic clerk who was discharged the other day from the Treasury Department is convinced by the arbitrary conduct of the new Administration that the people of this country will never have a chance to elect another President. He ought to come out to Oregon and take charge of the *Herald*.

It turns out after all that has been said about the President's appointing his relatives to office, that no relative of his except Silas Hudson of Iowa, a cousin, who has been sent as Minister to Honduras, has been appointed to any office whatever. Isn't this a great matter to raise a noise about?

New York papers of the 6th inst, say that Congressman Sargent of California put the question directly to the President to ascertain whether he would visit the Pacific coast this summer. The President in reply, stated that it would take rather more time than he could allow this summer for a vacation.

Reports from several parts of Washington Territory indicate that the campaign is progressing very favorably for Mr. Garfielde. Ben Hayden, by harping on repudiation and the "nigger," is disgusting all intelligent Democrats and doing Moore great damage. From the advices we have we judge that Garfielde's chances of election are very good.

Alluding to the recent rise in gold, the New York *Commercial List* says: "While the principal cause of this rise is to be found in the bad shape of our foreign exchanges, it has doubtless been aided by other disturbing agencies, among which may be reckoned the *Alabama* and Cuban questions, which are just now looming up into considerable prominence."

The Illinois Legislature lately enacted a law securing to the married woman the use and possession of her own earnings, and the right to sue for the same, without the interference of her husband or his creditors. But the Woman's Rights champions are not satisfied with this and complain because the act does not also give the wife a right to compensation for the labor performed for her husband and children!

The San Francisco *Examiner* is displeased because ex-Senator Gwin, Duke of Sonora, was not made conspicuous in the railroad celebration. It thinks that to him, more than any other man now alive, we owe that great national improvement. Another San Francisco paper responds: "That is so. For many years that great and good man carried the Pacific Railroad bill in his coat pocket, and had the party remained in power it might have been there yet."

The Albany (N. Y.) *Journal* asserts that the evidences are conclusive that Gov. Hoffman has broken with his own party, as he has had to rely on the Republicans to save him from being overridden by the Legislature. Other journals say that the statement is true to this extent, that Hoffman, in opposing certain plundering schemes, has not been sustained by a majority of the Democratic legislators, and would have been unable to defeat the most obnoxious measures but for Republican votes.

The New York *Times* of May 5th, observes that since news has spread throughout Europe that our vast continent was about to be spanned by a railroad and inner territory penetrated by steam power,—that the locomotive, emblem of progress, will henceforth fly like a shuttle between the Atlantic and Pacific, weaving something new, with each journey, into the grand fabric of American civilization—the effect is already seen in the fresh influx of foreign populations.

A correspondent of the San Francisco *Times* writes from Georgia that the Southern planters expect a cotton crop this year of 2,500,000 bales. Last year the crop was about 2,225,000 bales. Most of the planters have also planted a sufficiency of corn, and have concluded to avoid for the future the great mistake of raising nothing but cotton and trusting to the purchase of cheap corn in the Northern States. By this new system the cotton crop of the South is really made more valuable than ever before.

The freights upon grain from the Upper Mississippi valley by way of Chicago and Buffalo to New York, have heretofore amounted to upwards of sixty cents per bushel. Chicago claims that these rates can be reduced to fifty-two cents. But St Louis also steps in and asserts that the cheapest way of getting the products of that vast region to New York is by way of the Mississippi river to New Orleans, and thence by sea. It is confidently asserted that a saving of twenty-five cents per bushel can be effected by this route. St. Louis is taking hold of this matter with great energy, and claims that she will become the great grain depot of "the west."

The two political parties in Virginia are distinguished by the names of "Radical Republican" and "Conservative Republican." The former is known as the Wells, and the latter as the Walker, wing. The leading ex-rebels support the Walker party. Their State Convention declined to make any nominations. They declare their readiness to ratify the fifteenth amendment and only ask that the harsh provisions of the State Constitution be submitted to separate votes, believing that they can defeat those provisions. Gen. Grant has ordered the separate votes to be taken. They say that negro suffrage is an accomplished fact, and that sullen resistance is useless; while the election of Walker, a Northern Republican and a supporter of the Administration, for Governor, would give the people of the North confidence in their professions and induce immigration to the State.

A writer in the *North American Review* undertakes to show that the country is poorer now than it was before the war. The Springfield (Mass.) *Republican* effectually controverts this assertion. Massachusetts is an old State and the rate of increase there is nothing like a fair average of the increase of the whole country, yet the valuation of property in Massachusetts increased from $775,157,818 in 1860 to $1,220,499,000 in 1868, which shows that even on a gold basis the wealth increased largely. The increase in the individual valuation of property during eight years has been about $50 in gold for every inhabitant of the State. Taking this as a basis, the complete property valuation of the country would now be $23,000,000,000 in gold against $16,000,000,000 in 1860. The census returns will show even better than this calculation, since the rate of increase in Massachusetts from 1850 to 1860 was only about three-fifths of the rate of the whole country.

Treasury Sale of Gold

NEW YORK, May 24.—The government sale of $4,000,000 gold to-day brought 43 77 100@44 09 premium.

Suspected Steamer Detained.

WASHINGTON, May 20.—The Collector of the port of Philadelphia has been ordered to detain the steamer *Horsfal*, lying at Chester Delaware, it being suspected that she is in the interests of Cubans.

Samuel Harnell has been appointed Consul at Rochelle.

Washington News

WASHINGTON, May 20.—The Secretary of the Treasury has directed the Secretary at New York hereafter sell gold to the amount of a million weekly.

The President said to-day that the election in Texas will not be ordered before November.

Religious Intelligence.

BOSTON, May 20.—The American Bible Society to-day formed a union with the Baptist Publication Society. The latter is in a flourishing condition.

The General Assembly of old school Presbyterians met to-day. Over 300 delegates were in attendance. The morning proceedings consisted of devotional exercises. The business of the session commenced at one o'clock. The establishing of a new church at Santa Fe was announced as formed in accordance with the rules of the assembly, and the delegates were received and took their seats.

The new school General Assembly met at Dr Hatfield's Church, with a large attendance of delegates. The galleries were crowded with spectators. It is expected that, 250 delegates will be present during the session. Dr Stiveech delivered the opening sermon. The principal business transacted was the adoption of the Committee of Arrangements, regulating the proceedings.

The Memphis Convention.

MEMPHIS, May 20.—Delegates continue to arrive. The total number is now 110. A number of resolutions on various subjects have been introduced and referred to committees, including one requesting the Southern Railroad to hold a convention for the purpose of establishing an immigration corporation and take measures to systematize business, also to solicit Government aid for various roads, and one for the appointment of a committee to memorialize Congress to repeal the direct land tax of 1860.

The committee on the Southern Pacific Railroad reported in favor of a line from San Diego, California, through the junction of the Colorado and Gila, and south of the latter river to Elpaso on the Rio Grande, to a convenient central point on the 32d parallel of latitude east of Bruzos and through the State of Texas, to which main trunk feeder roads shall lead from St. Louis, Cairo, New Orleans and other points, all having equal communication with the main line, while a similar line from San Francisco and other points on the Pacific coast, shall have similar equal rights of connection. The committee gave as reasons that the first line favored is the shortest, connecting the Gulf of Mexico and the valley of the Mississippi with the Pacific coast. Second, through now passes, the most easy grades and cheapest route for construction. Third, the valleys are most fertile. Fourth, the route is traversed by water transportation at three points, affording the greatest facilities for construction. Fifth, this line will open to the world the great mineral resources of Arizona and Sonora and render more valuable the great stock raising districts of Texas and New Mexico, and stimulate enterprise thereto, secure to a great portion bullion, which now seeks Europe by hazardous conduct and smuggling vessels. Sixth, finally it will encourage emigration and direct trade with Europe.

The committee reported in favor of steamship lines from Southern ports, which should be encouraged by subscription. The scheme should be inaugurated between Norfolk and Liverpool. Dr. Lindsay presented a minority report setting forth the claims of Mobile, New Orleans and Savannah, which excited a long discussion, pending which the Convention adjourned.

Kentucky News.

LOUISVILLE, May 20.—The Board of Trade to-day appointed a number of leading merchants to attend the Commercial Convention.

About 300 persons assembled at Cave Hill Cemetery to decorate the Confederate soldiers' graves. A poem written for the occasion by Mr. S. Preston, of Virginia, was chanted by choirs of the principal city churches in the most impressive manner. All the graves were decorated alike.

The Baptist General Association of Kentucky was opened this morning.

Tennessee Politics.

NASHVILLE, May 20.—The Republican State Convention met to-day. Thiery, of Knoxville, a friend of Senter, was appointed temporary chairman, but the friends of Stokes refused to recognize the appointment. A scene of much confusion followed, which was closed by effecting an adjournment till afternoon. On reassembling, there was a repetition of the noise. Efforts to restore order were futile. A passionate difficulty occurred between two delegates, both drawing pistols. In the midst of the hubbub a motion to adjourn was carried. The rivalry between Stokes and Senter is exceedingly bitter, but it is reported to-night that Senter will withdraw to-morrow, in which case, perhaps, a third party will be nominated.

BY ATLANTIC CABLE.

MADRID, May 20.—A dispatch has been received announcing that about 2 000 adherents of Queen Isabella, under Gasscet and Posuela, have assembled at Perhignan, a French city on the Spanish frontier. At last accounts they were nearly ready to cross the border. The Government has taken steps to prevent such an invasion.

MUNICH, May 20.—The recent elections resulted generally in favor of a union of North and South Germany.

LONDON, May 20.—The Oxford crew have commenced to practice for the contest with Harvard. The London rowing club challenge the Harvard club to a match.

VIENNA, May 20.—The Emperor has given his sanction to the publication of the school bill passed by the Reichsrath.

DUBLIN, May 21.—The Grand Lodge of Orange men of Ireland have petitioned the Queen against the disestablishment of the Irish Church.

LONDON, May 20,—The elections in France seem to have been attended with more or less disorder. Since the 12th inst., 118 persons have been convicted in Paris for raising disturbances. Of these only 17 have been discharged. Popular demonstrations are reported at Nismes, where the people sang the "Marseillaise." At Bragas the prison was forced open by a crowd of political agitators. One of the leaders, who had been arrested, was released. In the department of Aube, during the election tour of M. Forrier, a riot took place in which blood was shed.

OREGON.

A proposition is made to move the court house at Eugene City to a more convenient site than it now occupies.

Flint, the cattle buyer who absconded from Benton county, has turned up at Ochoco, still pursuing his confidence game.

The ministers of the M. E Church connected with the Salem District, hold a convention in Albany, commencing on Tuesday, May 25th, at two o'clock P. M., to be continued three days. A sermon will be delivered at the M E Church each evening during its continuance.

The *Gazette* says the house of J W. McRee, of Benton county, was burned last week. Everything was consumed, the family barely escaping with their lives. Some weeks ago the smoke house and granary of R. R. Rounds, in the same county, were burned. Loss, $2,000.

A Eugene paper reports that while a footman was crossing the Calapooya Mountains on last Monday, that a panther, after following a considerable distance, came up within a few feet and was in the act of springing upon him, when he ignited a newspaper and threw it at the animal, when it ran into the brush.

The editor of the *Corvallis Gazette* says: In passing to the Cascades to Dallas, recently, we noticed that many orchards are suffering from the ravages of caterpillars. One large orchard, in particular, seemed almost entirely ruined by them. Ebenezer Akon, of Fairhaven, Mass., gives the following plan of getting rid of them. He says: "I have only two apple trees, and I mean the caterpillars to have a nest on them. I take a pole, sharpen the end, and wind rag around it, and wet it well with whale oil or petroleum, and with this I destroy the nest, and I am never troubled."

In the Temperance Convention held at Dallas on the 7th May, it was resolved: That we memorialize the Grand Lodge to instruct all subordinate Lodges in the State of Oregon to petition the next session of the Oregon Legislature to enact a law of the following import, to wit: That at each regular election in the several precincts of said State the people shall poll a direct vote for or against the sale of intoxicating liquors other than mechanical, medicinal or sacramental purposes, within said precinct, that if a vote should be declared against such sale, a violation of said law

The Eugene *Guard* says: "A ball of cotton material has been found under the ruins of the house in which Mrs. Steventon and her children perished. The ball is much burned, and was evidently the instrument by which the house was fired. It is an ingeniously made contrivance and exhibits the workmanship of a master in the business. This will at least set at rest the question of the origin of, and is conclusive, that the disastrous fire was the work of an incendiary.

From the Albany *Democrat*: Ed. E. McClure, who last fall went from this city to Goose Lake, Southern Oregon, has returned here for the purpose of taking his family back with him, intending to make his future home in that country. He and several others passed the last winter in Goose Lake Valley had some ice, and the deepest snow was about eight inches; no rain to amount to anything during the entire winter. Some enterprising individual is erecting a store house, and several families are expected to settle in the valley during the coming summer.

The Eugene *Guard* relates the following: About seventeen years ago the house of George Armitage, Esq., across the river was robbed of several hundred dollars and two watches. No clue was ever obtained of the thief or property. Mr A rented a piece of his land to Mr. McGrew this spring—it was new land that had never been cultivated—and in plowing, Mr McGrew turned up two watches, which were recognized by Mr. A. as being the very ones which were stolen in 1852, one of them is said to be in good condition and with cleaning will keep time.

There is no mistake about it, PLANTATION BITTERS will ward off Fever and Ague and all kindred diseases, if used in time. No family need suffer from this distressing complaint if they will keep PLANTATION BITTERS in the house, and use it according to directions. The most important ingredient of this medicine is Calisaya or Peruvian bark which is known to be the finest and purest tonic in the vegetable kingdom. The extract of this bark is the active principle of all good Fever and Ague medicines prescribed by intelligent doctors. Calisaya bark is used extensively in the manufacture of Plantation Bitters and we dare say owe their popularity mostly to that fact. We can recommend them.

THE RAILROAD TERMINUS.—By the arrival of the steamer *Oriflamme*, it will be positively known where the Railroad Terminus on the Sound will be established, and before long an army of men, equal to that of the grand Pacific Railroad, will be employed, who will build the road with all possible speed. The Depot, without further doubt, will be established at the well known house of KOHN & FISHEL, No. 91 Front street, where the finest, best and most stylish Clothing, Gents' Furnishing Goods and Dry Goods can always be had, at such low prices that the most crabbed purchasers must be pleased.

PEOPLE SHAKE—not with fear as to the future of Portland, but with the *Ague*, which can be cured in *six* hours and *no return* of the chills or dumb ague or its kindred ills, by using our celebrated and sure *South Carolina Ague Cure*. It is sold at the reasonable price of $1 00 per bottle. Call at "*The Oregon Dispensary*" for your SPRING Medicines, for they are all pure, fresh and *cheap* and will be vouched for by *the* most eminent of the Medical Faculty in the city. Everybody patronizes the "Oregon Dispensary" in consequence of the above fact, and it requires *five* assistants to attend to the wants of our patrons. LORYEA & KALLENBERG,
73 First street, Portland.

DIED:

In this city, May 23, 1869, Frank, youngest son of A. P. and Mary DeLin, aged 14 months.

Funeral to-day at 2 o'clock P M., at the residence, corner of First and B streets. Friends of the family are invited.

In this city, May 20, 1869, Mrs. Elizabeth A., wife of John Kettring, aged 22 years.

Army Supplies.

OFFICE OF CHIEF COMMISSARY OF SUBSISTENCE, DEPARTMENT OF THE COLUMBIA, Carter's Building, Portland, Oregon, May 22, 1869.

SEALED PROPOSALS, IN DUPLICATE, ARE INvited, and will be received at *this* office till 12 M., *Saturday*, 29th inst., for delivery at such point in this city as may designated by the undersigned, or at Fort Vancouver, W. T., as may be most convenient to the bidder, at such times and in such quantities as may be required, of

60,000 pounds EXTRA FLOUR, in new sacks free from sizing, each containing 49 pounds of flour;
3,000 pounds FIRST QUALITY HARD BREAD, to be in boxes 27x17x11 inches exterior measure, containing a uniform weight of bread; the ends of the boxes to be of inch, and the remainder to be of five-eighths stuff.
32,000 pounds ISLAND BROWN SUGAR, in half barrels, of high and uniform grade.
1,550 gallons PURE CIDER VINEGAR, of uniform strength, in painted half barrels with four iron hoops, bungs capped with tin;
16,000 pounds FINE SALT; specify kind and how sacked;
8,000 pounds COARSE SALT, specify kind and how sacked;
1,000 pounds BEST QUALITY OREGON DRIED APPLES of last year's crop, in well seasoned, well-coopered, half barrels.
1,200 pounds BEST QUALITY PURE LEAF LARD, in ten pound tins, put up in strong cases; specify make.
Samples showing quality of the article offered, in suitable packages for that purpose, with the name of the bidder marked thereon, must accompany proposals, and bidders are invited to be present at the opening of bids.
Bids must be stated in coin, and payment will be made in the equivalent of coin upon acceptance of the article, in such funds as may be furnished by the Government for that purpose.
Proposals for *any part* of the above will be considered, the United States reserving the right to reject any or all bids.
The expenses of this advertisement to be divided among the successful bidders *pro rata*.
Further information will be given upon application at this office.

Apply to
STITZEL & UPTON,
REAL ESTATE BROKERS,
Corner of Front and Washington streets.

Read H. D. & Co.'s Ad in *Herald* and DAILY OREGONIAN and *then* the following.

WHY IS IT?

Why Is It? IF "THE 'BUCKEYE' RECEIVED ALL THE first premiums at State Fairs during 1868," WHY IS IT that the OFFICIAL RECORDS of said State Fairs made *quite a different showing?* and at the last State Fair in Ohio, where the "BUCKEYE" *originated*, WHY IS IT that notwithstanding a small army of people in the *Buckeye interest* were on hand to represent a Mower made of Rosewood and Polished Iron, daintily placed on a carpeted platform and were using all the nameless appliances, and leaving no stone unturned to secure the coveted FIRST PRIZE (thereby retaining its former prestige), again we repeat, WHY IS IT that a "CLIPPER" of ordinary shop finish and represented by a single obscure agent *carried off the said First Premium in competition* with the "BUCKEYE" and a dozen other leading mowers?

Why Is It? If "the 'BUCKEYE' captured the grand Gold Medal at the great National Trial," concerning which so many changes have been rung—WHY IS IT that it would not be in good taste to ADD *that this was some time ago* (1866), and THEN *only in a "CERTAIN CLASS,"* as a mower, and that at the *same trial* in certain *other* "classes" *several* OTHER *machines* captured Grand Gold Medals?

Why Is It? If "the 'Buckeye' is acknowledged by ALL the world as the best machine invented?" WHY IS IT that at numerous Field Trials, County and State Fairs in 1868, a *different* verdict was announced, and further, WHY IS IT that in so many of the large grain growing districts east of the Rocky Mountains the Farmers should be unaware of this important fact, and *other Patterns* besides the "Buckeye" *should so largely have the preference?*

Why Is It? If the 'Sweepstakes' is the best Thresher extant," WHY IS IT that the sales of some other manufacturers should so greatly *exceed those of the "Sweepstakes?"* and WHY IS IT that so many of the wheat buyers along the Willamette GIVE THE PREFERENCE to grain threshed and *cleaned* with the IMPROVED "CHALLENGER?" And again, WHY IS IT that after all this "*fuss*" and "*blow*" brought to bear in favor of the "Sweepstakes," and to make Farmers believe that the sun rises and sets in a "Sweepstakes"—Separator; yea, after all this agony, sitting up of nights and painting "Sweepstakes" and "Buckeye" on boards to adorn Fir Trees along the roadside, WHY IS IT that *the Most Intelligent and Experienced Threshers pronounce in favor of the* "CHALLENGER?"

Why Is It? If certain "honorable" and "upright" dealers do *not* aim to mislead the public, WHY IS IT that they advertise themselves as SOLE agents for the genuine Haines' Header?"

We have not space to enumerate several more queries that present themselves: but while we do not wish to detract from the merits of the "Buckeye" or "Sweepstakes," we would caution Farmers not to be HUMBUGGED and MISLED by *windy representations, garbled reports and statements*, but to look about and make a *personal examination and comparison* of the various IMPROVEMENTS lately made on harvesting machines, before buying. If *then* not fully satisfied as to which is the BEST MACHINE *we will allow any purchaser* the privilege of working a "Clipper" alongside of a "Buckeye Mower;" a Dodge's Improved "Ohio and Buckeye" Hand or Self-Raking Reaper and Mower of the *new style* alongside of a "Buckeye Self-Raker;" or a Pitt's "Challenger" alongside of a "Sweepstakes;" he agreeing to *keep and pay for the machine preferred*.

We *invite and challenge* THIS SORT *of competition*, not fearing the intelligent farmer's choice. Such trials are more satisfactory to the farmer than all this "claptrap" of prizes awarded and high sounding statements of superiority. More anon.
